## PROFESSIONAL SUMMARY

Front-End Developer with 2+ years of experience. Revitalized user interfaces using React, Redux, HTML, CSS, and JavaScript. Streamlined design implementations, fostering intuitive interactions. Thrived in startup dynamism, injecting adaptability and innovation into collaborative teams.

## TECHNICAL SKILLS

- Html
- Css
- Bootstrap
- Tailwind
- Javascript
- React.js
- Next.js
- Redux
- Node.js
- Express
- MongoDB
- Git
- Page performance optimization
- Strapi.js
- Data Structures & Algorithm

## EDUCATION

### Full Stack Web Development

Masai School, Remote Location |  
Jan 2021 to August 2021

### B.Tech (Mechanical Engineering)

NDUAT, UP | 2011 to 2015

### Intermediate (10+2)

Bharat Public School, Amethi, UP  
2009 - 2011

## EXPERIENCE

### Software Development Engineer (MPL)

Mobile Premier League | September 2021 - August 2023

#### 1-Worked on web apps, page performance

- Developed and maintained MPL's web applications using React.js and Next.js.
- Implemented third-party codes for marketing and analytics to track user interactions and optimize website performance.
- Collaborated with cross-functional teams, including UX designers and back-end developers, to deliver new features and improvements.
- Contributed to the optimization of website performance, resulting in improved page load times and user engagement.
- Worked on website localization, ensuring a seamless user experience for the audience in their native language.
- Demonstrated knowledge of server-side rendering and implemented best practices for code that optimizes page speed and improves SEO.
- Applied responsive web design principles for optimal user experiences across devices.
- Proficient in code debugging, ensuring high-quality and bug-free applications.
- Utilized tools like Jenkins and Harness for efficient deployment processes.
- Familiar with WordPress, utilizing it for specific project requirements.
- Familiarity with RESTful APIs.

#### 2-Worked on strapi cms dashboard

- Utilized a headless CMS (Strapi) for efficient management of website content.
- Proficiently designed custom content models in Strapi for tailored content management experiences.
- Skillfully leverage diverse databases for optimal data storage and retrieval strategies.
- Create seamless API integrations, enhancing application functionality and user experiences.
- Ensure secure authentication and role-based access control for data integrity.
- Expertly customize Strapi themes and plugins for unique designs and features.

### Software Development Engineer

Metadome.ai | August 2023 - November - 2023

- Developed interactive UIs for various AR experiences, driving user engagement and intuitive interaction.
- Collaborated with cross-functional teams (3D Artists, Designers, etc).
- Built a highly scalable and dynamic AR UI using React and Redux, facilitating seamless real-time interaction with 3D bike models.
- Implemented Redux state management patterns to maintain complex AR scenes efficiently, enabling smooth transitions and responsive user interactions.
- Utilized React's component-based architecture to create modular and reusable UI elements for the various AR functionalities.
- Leveraged React hooks and functional programming principles to improve code readability and maintainability within the AR front-end.

### Development Engineer

Gloria Engineering Company | 2017 - 2019

- Developed new parts with provided drawings and did modification when required.
- Work with production department to get new parts developed.

### Quality Engineer

Rons Technologies LLP | March 2016 - October 2017

- Inspection of all incoming new parts and maintaining related documents.
- Maintain checklist for new assembled machines.
